WORK EXPERIENCE

Sigmoid Analytics

Dec '25 - Present

Senior Manager - Management Consulting | *Leading Data & AI solutions for retailers across NA & Europe*

- Leading consulting engagements for global retailers, owning business-analytics roadmaps & translating ambiguous business problems into AI-led solutions across demand, supply chain & commercial use cases.
- Manage consulting and analytics teams to deliver value-focused initiatives, strengthen CXO relationships, and evolve repeatable offerings and frameworks for scalable transformation.

Accenture Strategy & Consulting

Jul '21 – Dec '25

Manager Management Consulting | *Part of Retail practice with clients across NA & Europe*

Data Migration Lead & Offshore Delivery Manager | Cencora / Alliance Healthcare – UK

- Established and led PMO for end-to-end Relex (ML-driven forecasting platform) data migration program; governed 8-member offshore team across solution and technical workstreams.
- Owned program-level RAID log, status cadence and steerco reporting; managed timelines, dependencies and risks across client, offshore and platform-vendor touchpoints.
- Facilitated client discovery workshops to define data requirements, perform fit-gap analysis, and map integrations architecture for Relex, an ML-driven forecasting platform
- **Achievement:** Built an Alteryx based data validation tool which could test more than 250 checks across the input and output data files within seconds and instantly published a detailed report. This tool was recognized by Accenture and Relex leaders and used in subsequent Relex projects.

Solution Consultant | M&S Foods | British Grocery Retailer

- Developed ML-driven workflows in Relex for BOM and Hospitality product categories, optimizing stock cover while reducing inventory waste and inefficiencies.
- Identified root causes and edge-case scenarios arising from custom Relex configurations, enabling smoother team operations and improved solution stability.

Product Manager | Accenture Technologies (aiRetail) – Internal Product

- Developed product roadmap for retail AI solution, combining cloud data foundation with proven use cases
- Enabled category managers with insights into product portfolios, store clustering & customer decision trees to optimize margins & space through a predictive model

Data Consultant | Kingpower | Thai Duty-Free Retailer

- Led discovery workshops on enterprise planning platforms (Blue Yonder, Increff, Anaplan) to capture comprehensive requirements across forecasting, replenishment & space optimization
- Designed and presented demo scenarios to assess platform capabilities and identify best-fit solutions

Functional Consultant, Workforce Modeling | Sainsburys | UK

- Forecasted retail labor demand; created “what-if” scenarios to optimize staffing and future labour cost

Strategy Consultant, Location Analytics | Meijer | North America

- Developed Store Network Strategy through analytical models for identifying effect of catchment venues,

competitor characteristics, halo & cannibalization to test scenarios for recommending future store estate

Growth Strategy Consultant | Woolworths | South Africa

- Crafted roadmap for wine & liquor to mitigate regulations affecting 90% of sales, ensuring growth & resilience
- Led omni-channel strategy; recommended stores & optimized online fulfilment to expand reach & revenue

Cost Optimisation Consultant | Mars Inc | North America

- Led indirect spend optimization leveraging ZBB tools & ideation workshops, delivering \$30M in annual savings

Blackberrys Menswear

Jul '18 – Jun '21

Demand Planning Manager | Leading Indian apparel company with a revenue of ~\$200 M

- Developed **demand forecasts** across various levels of aggregation and time horizons by leveraging insights into historical sales trends and market dynamics
- Collaborated with cross functional teams to **reconcile variances** & to inform **supply planning to develop inventory strategies** on existing items, new products & phase-outs

Project Business Manager (Director's Office) | *Led Strategic projects in supply chain and revenue growth*

- Led PMO out of the Director's Office for cross-functional supply chain and revenue-growth programs — owning charters, milestone tracking, governance cadence and executive reporting.
- Re-engineered the 'Idea to Store' value chain by building separate value streams for Basic vs High-Fashion merchandise, reducing end-to-end lead time and improving responsiveness.
- Drove process re-engineering at warehouse to **reduce handling cost/pc & improved throughput** by eliminating bottlenecks, automating & minimizing non-critical tasks
- Managed the P&L for \$5M E-commerce brand; Optimizing range, pricing, and ensuring quality/cost control. Managed marketing, activation, and collaborated on order / inventory planning with the business teams

Henkel Adhesives

Sep '16 – Jun '18

Regional Sales Manager (West India) | Consultative sales for automotive OEMs & auto-ancillary companies

- Oversaw nationwide forging lubricants portfolio, driving end-to-end sales management and fostering collaboration across cross-functional teams

Indraprastha Gas Limited

Sep '11 – Jun '14

Area Sales Manager (West India) | Providing energy solutions for diverse industrial applications

- Strategically expanded Natural Gas market to manufacturing units, achieving a 2X growth in just three years through proactive customer engagement and liaison with associations and regulatory authorities
